PRINTERS

Ten print platforms covering flex, vinyl, fabric and rigid substrates — up to 3.2 m wide, colour-managed and proofed before every run.

CUTTERS & FABRICATION

CNC routing, CO2 laser cutting and in-house metalwork — ACP, acrylic and composites, plus structural steel fabrication and welding.

FINISHING & FACILITIES

In-house finishing, assembly and dispatch on the Belur production floor in Dharwad.

PEOPLE

Our own print operators, fabricators and install crews — no rental machines, no third-party labour. The crew that fabricates stays on through install.

The CO2 laser cuts acrylic, wood and other non-metals. Metal is folded on the press brake and welded here — it is not laser cut, and we say so before you book.

Ours. Not rented for your job.

ALSO FROM BELUR

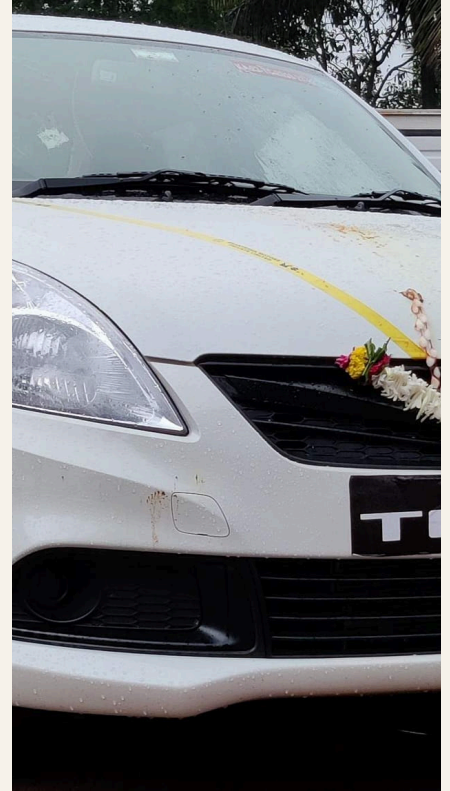

Two more businesses, run from the same yard.

Corporate mobility and owned-fleet freight sit on the same campus, under the same roof. Their own profile has the rest — vehicles, routes and the desk that runs them.

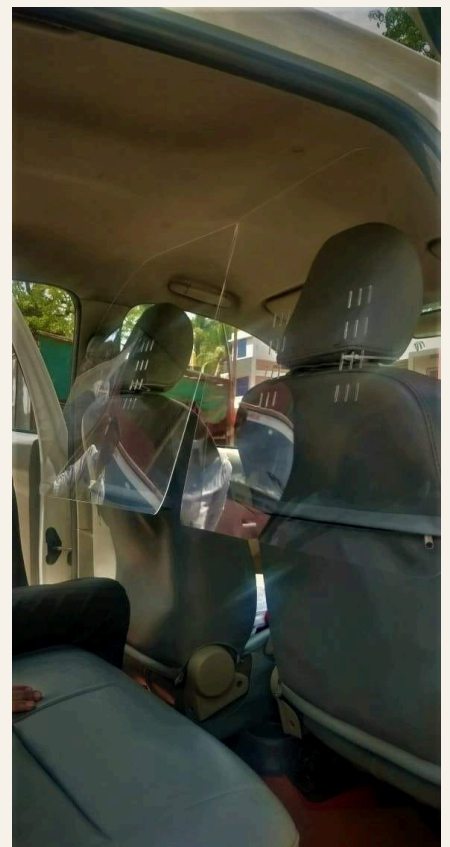

VANS • GARLANDED, READY FOR A RUN

ALSO FROM BELUR

SEDANS • THE WORKHORSE, BADGED

INSIDE • DRIVER PARTITION FITTED

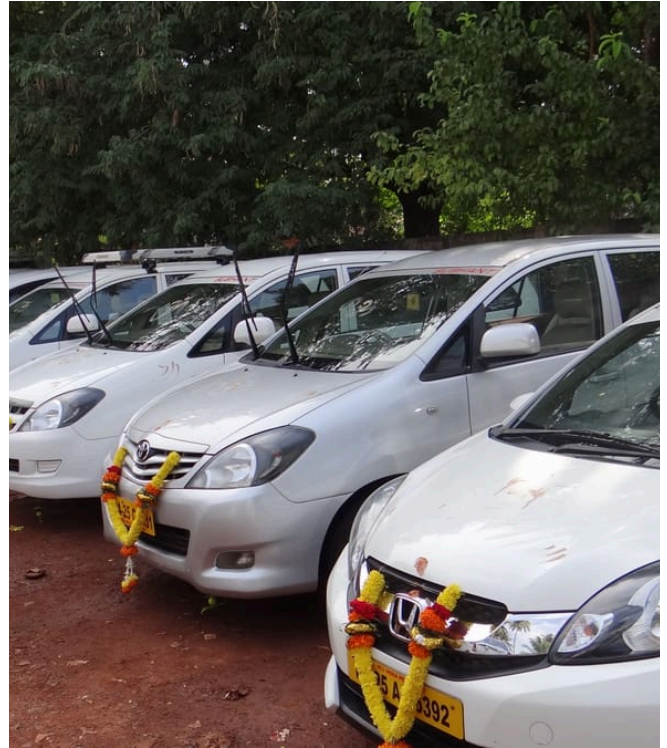

Four more, across the group.

AUTO-COMPONENT MANUFACTURER • DHARWAD • 2024

Daily staff transport — auto-component plant

Daily staff transport run on fixed routes and fixed timings, dispatched and reported from a single desk.

IT SERVICES CAMPUS • HUBLI ⇄ GOA • 2024

Goa airport executive transfers

Executive and visitor transfers run between Hubli and Goa airport, booked through one contact and dispatched against the flight.

DHARWAD • 2023

Conference and inauguration movement

Delegates moved between hotel, venue and site as one planned movement, coordinated on site off our own vehicles.

AUTO-COMPONENT SUPPLIER • DHARWAD ⇄ BENGALURU • 2024

Daily parts run — Dharwad to Bengaluru

Line-side parts moved on a scheduled overnight run from Dharwad to Bengaluru, with the transport paperwork closed out on every trip.

One floor means one handover, not five.
