ISO 9001:2015

SUSHANT **INDUSTRIES**

**Complete Large Format Printing
and Signage Solutions**

Started in 1998, we are an ISO 9001:2015 certified large format printing and signage manufacturing company operating in Karnataka and Goa regions.

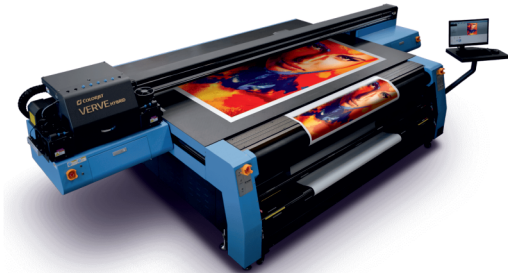

Over the years, we have grown to regularly cater to more than 250 large companies and delivering numerous successful turn-key projects.

We boast an infrastructure of highly specialized machinery, skilled staff, experienced management and cater to every small and large printing and signage requirements you have.

UV Printing

SUSHANT INDUSTRIES

We are equipped with top end UV printing machinery to cater to your premium printing requirements. With our machines, we can print on any flat or flexible surface you can think of at 300DPI+ resolutions and offer multi-layerd prints..

Print on any material

With UV curable inks and flatbeds we can print on any material you can think of

White and Varnish Printing

We have the capability to print white and varnish colors to produce specialized effects

High Durability

UV prints are highly durable and eco-friendly for both indoor and outdoor print applications

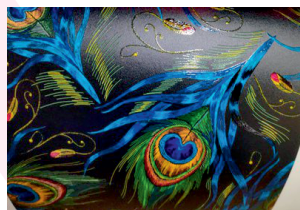

Multilayer printing

We can make multilayered prints to produce embossing effects and visual impacts

We can UV Print on,

ACRYLIC

VINYL

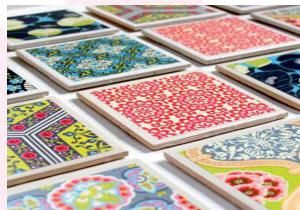

FOAM

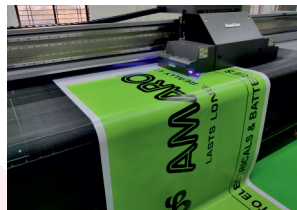

GLASS

FABRIC / CLOTH

TILES

FLEX

ACP SHEETS

Go for UV printing when you need any of the following,

Durability of Printing - Up to 3 Years of outdoor Life

Special Ink Requirement - When you need to print white and varnish colours

High resolution - UV prints are offered at 300+ DPI resolution

Printing on rigid and special materials - You need direct printing on rigid or special materials

Eco - friendliness - We use green guard gold certified UV Inks

HandTOP

KYOCERA

COLORJET

RICOH
imagine. change.

Latex Printing

We are equipped with Latex 570 and Latex 800W from the range HP Large Format printers. With the unique capability to offer whitest white printing, higher printing speeds and long lasting ink you can choose us for high end latex printing jobs.

Durable and Ecofriendly

Latex prints are highly durable and have the highest green credentials in printing

White Printing

We offer the whitest white color printing with the Latex 800W in multiple print modes

Multilayer printing

We can print creative in layers to produce specialized graphics

Latex Printing Applications

Vehicle Wraps

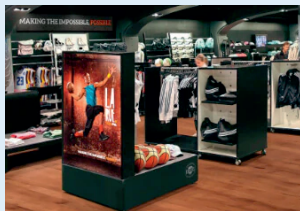

Backlits

Labels and Stickers

Outdoor Signage

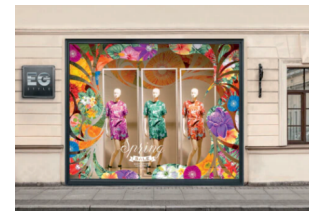

Retail

Soft Signage

Events and Exhibitions

Window Graphics

Go for Latex printing when you need any of the following,

Durability of Printing - Up to 3 Years Outdoor Life

White Ink Printing - Latex 800w offers whitest white color printing

High resolution - When you need higher 600+ DPI resolution

Thermo-forming and Wrapping - Latex inks are the best choice for heat stretching and wrapping

Eco - friendliness - Latex inks have the highest green credentials, even better than UV printing

Solvent and Eco-solvent Printing

SUSHANT
INDUSTRIES

We offer solvent and ecosolvent printing services for your outdoor and indoor graphic applications. With highly durable inks, high resolution and rapid printing speeds we can produce more than 2500 sqft of solvent prints and more than 300 sqft of ecosolvent prints every hour.

3.5pl Eco-solvent Printing

Our ecosolvent printer uses 3.5pl print heads and produces high resolution prints

High Volume Printing

We specialize at high volume solvent printing with a capacity of 25000 sqft per day

Branded Inks and High Print Quality

We use OEM inks and produce prints at the highest quality and durability

Solvent & Eco-Solvent Printing Applications

Flex

Fabric

Lightbox Advertising

Billboards

Vinyls

Wallpapers

Events and Exhibitions

Standees

Go for Solvent / Eco-Solvent printing when you need any of the following,

Low cost printing - Solvent printing has the lowest cost and is recommended for low resolution prints, for low cost higher resolution printing Eco-solvent is preferred

Quick Printing - Solvent printing is offered at upwards of 2500sqft per hour

Short duration campaigns - For campaigns of duration of up to 1 year

Solvent and Eco-solvent printings are not as eco-friendly as Latex and UV prints

Laser Cutting and CNC Routing

SUSHANT
INDUSTRIES

We are equipped with multiple high end laser cutting and CNC routers. Our laser cutters can cut upto 1" thick block of acrylic and engrave at high speeds. Our CNC routers can carve through solid blocks of wood, acrylic, cement boards and cut sheets of size upto 12ft in length.

Laser Cutting

We offer Laser Cutting and engraving with a 4ft x 3ft engraver and a 8ft x 4ft cutter for full sheet cutting

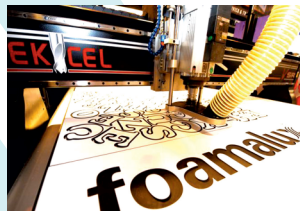

CNC Routing

We have two CNC routers to meet different needs 12ft x 5ft bed for longer or larger sheets and blocks 8ft x 4ft bed for average sheets and blocks

Cutting and Routing Applications

Acrylic Awards

2D ACP Cutting

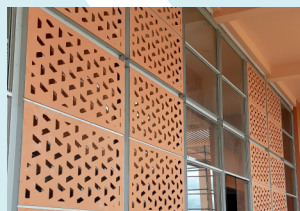

Acrylic Letters

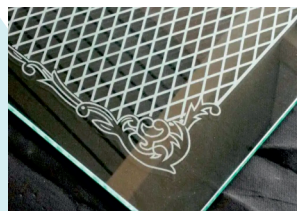

Wood Carving

MDF Cutting

Cement Board Cutting

Glass Etching

Granite Etching

Co2 Laser and CNC Router are Preferred For Various Applications

High Accuracy Cutting - Cutting is done digitally with an accuracy of 0.1mm

3D Digital Carving - CNC router digitally carves the wood

High Edge Finish - Laser cutting produces finished edges on acrylic

We can cut Acrylic, MDF, PVC and many other materials on Laser Cutter

CNC Router can cut and carve wood, ACP, Cement Board etc.

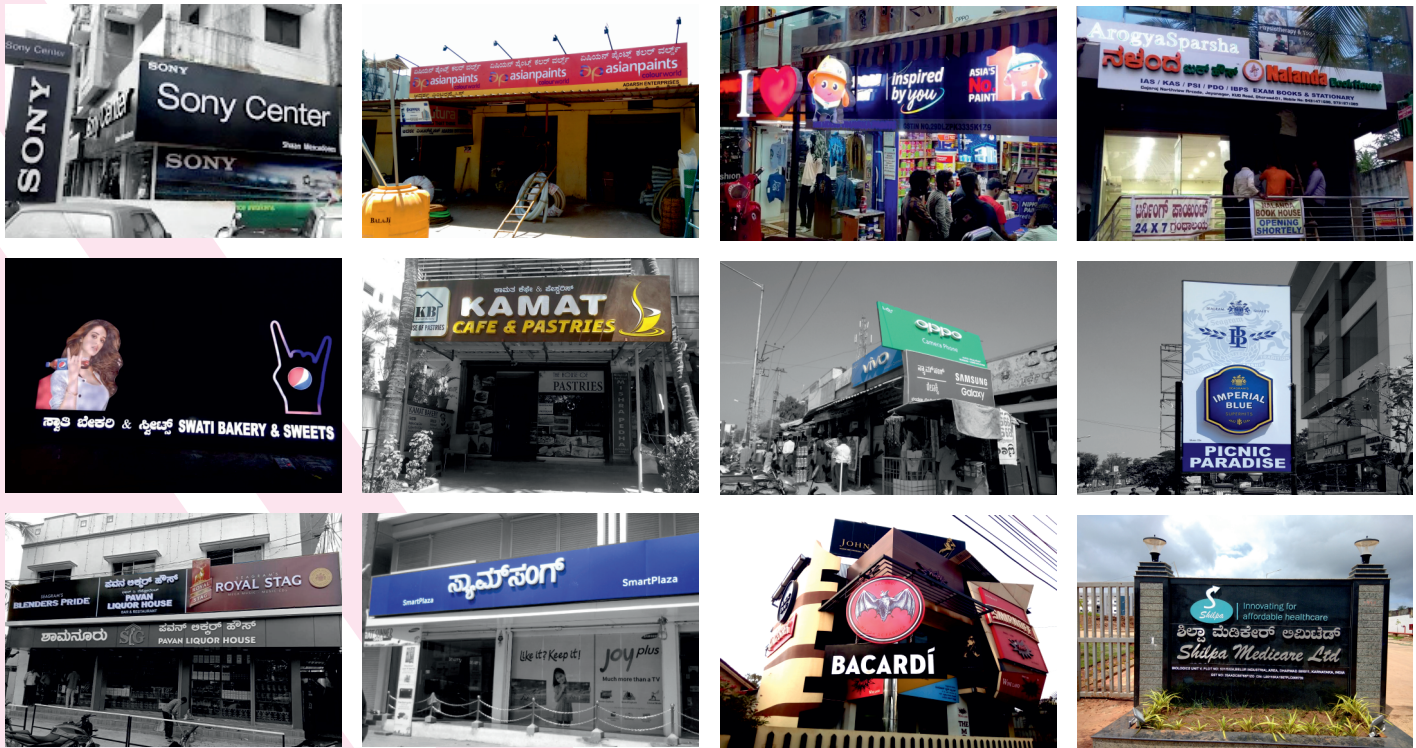

Signage Solutions

We manufacture high quality, durable and attractive signage. We offer a variety of signage to meet each and every campaign or branding requirement.

ACP and LED Signage

ACP and LED signage are highly durable, energy efficient and provide a unique appearance wherever deployed. We offer various combinations depending on the requirement.

Graphical Signage

We manufacture high quality graphics for your safety signage, directional and way finding signage. We print customized wallpapers, vinyls and arts as per your requirements.

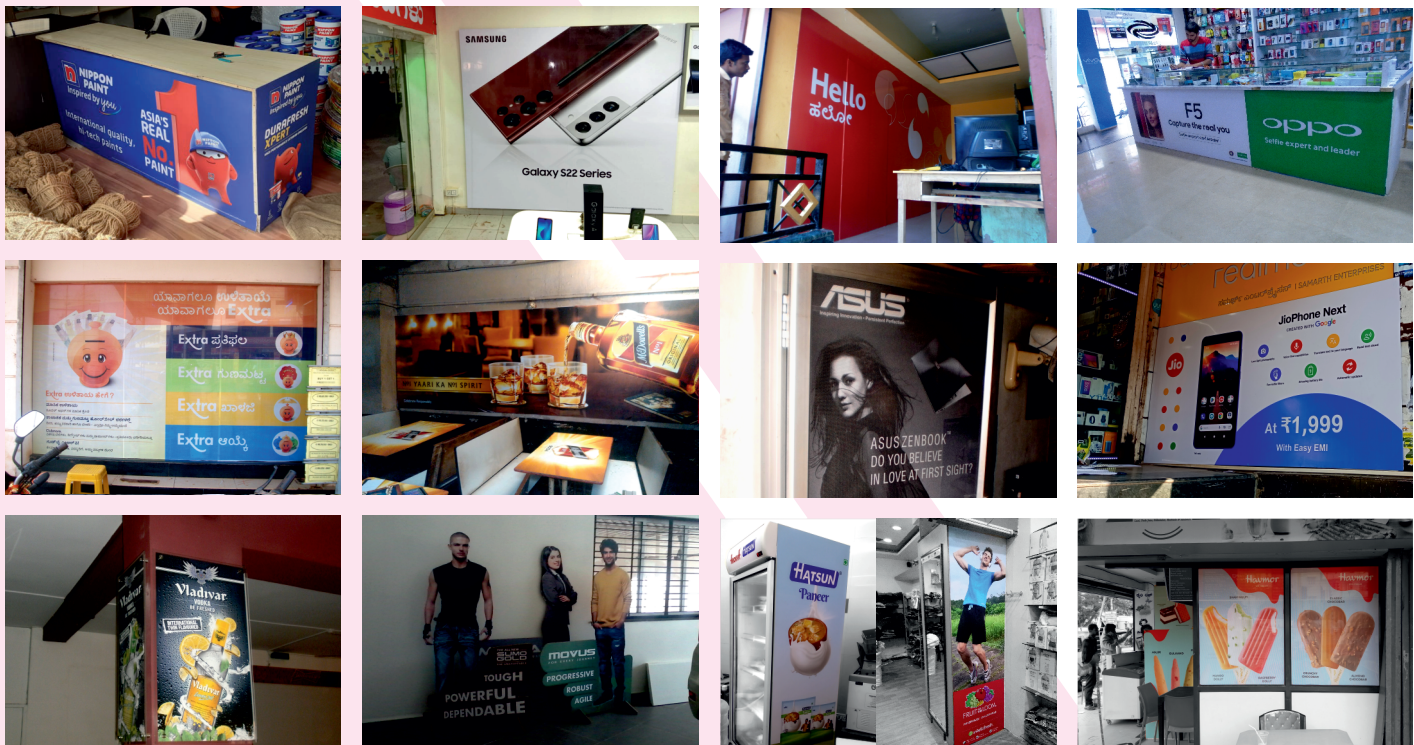

Commercial Print Signage

We digitally print on various substrates and manufacture high quality exterior grade sign boards. These boards can be made with various options of lighting and substrates, depending on the requirements.

Inshop Branding - Vinyl / Oneway / Sunboard

Inshop branding and indoor signage are a must for every shop and showroom. We provide the highest quality UV, Latex and Ecosolvent printing options for your indoor signage needs along with installation.

We are Specialised in,

UV Printing (Roll to Roll and Flatbed) | Latex Printing | Eco-solvent Printing
Solvent Printing | Retail Signage | Industrial Signage | Safety Signage
Traffic Signage | Event Signage | Point of Sale Displays
